

Dominate with Analytics

TK
TARA KENYON

Compete with Analytics,
Chase Your Customers

DOMINATE with Analytics,

THEY CHASE YOU

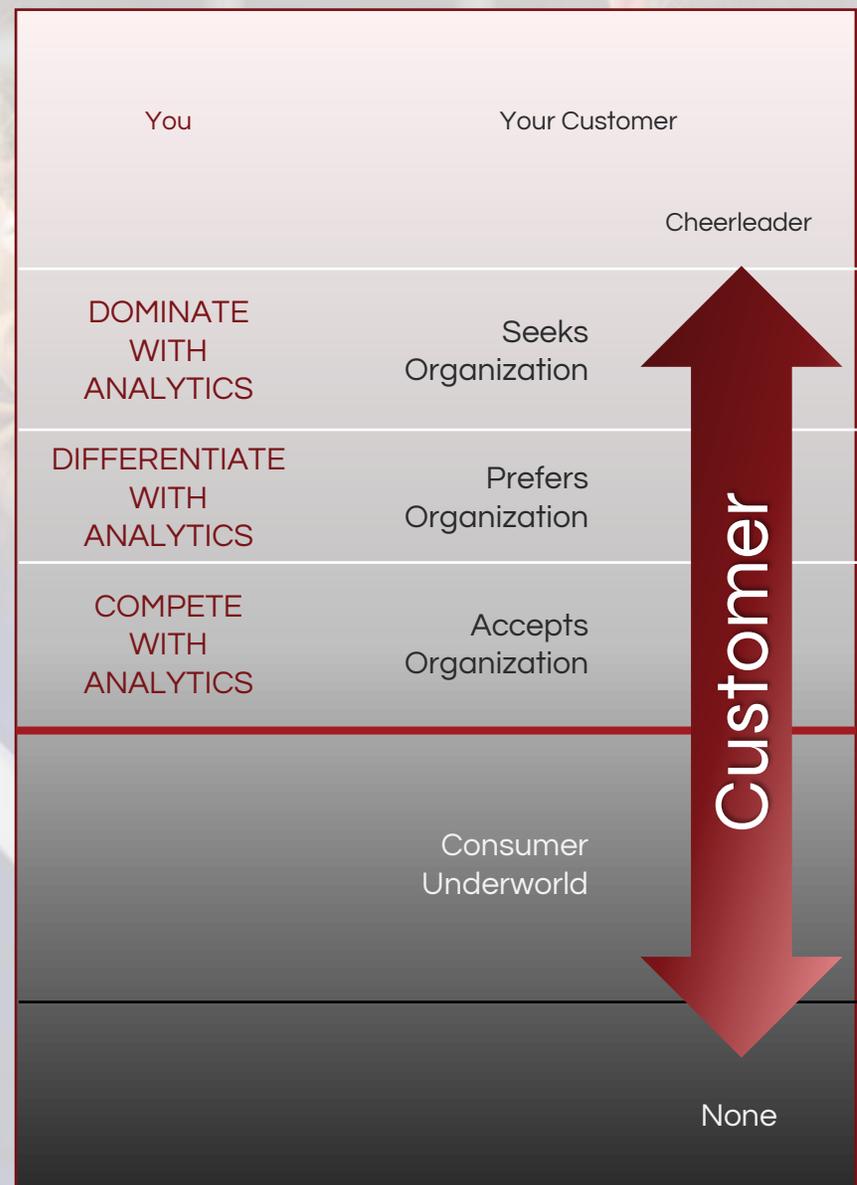

Do You Have Cheerleaders?

ARE YOUR CUSTOMERS CHEERLEADERS FOR YOUR ORGANIZATION? Or do you give them reasons to avoid it altogether (i.e., operating in the “Consumer Underworld”)?

Chances are, you are somewhere in between.

If you simply compete with analytics, you will operate on par with your competitors—they are doing the same things.

But when you **dominate with analytics**, your customers become your chief allies, cheerleaders that are thrilled to help you succeed.

BUSINESS LEADERS USE CUSTOMER DATA AND ANALYTICS TO DOMINATE THEIR MARKETS

Our focus is NOT on data systems and data analysts.
It's on you, the business leader

You are not interested in learning the ins and outs of Python and R programming.

BUT YOU DO NEED TO KNOW HOW TO GET A RETURN ON YOUR DATA INVESTMENT.

It's about proper communication *and* expanding opportunities for Key Talent attraction and retention.

THE ACTS MODEL
FOR
DATA ↔ BUSINESS COMMUNICATION

Dominating
with Analytics
is Within
Your Reach

Leadership in Analytics

Optimizing Data Insights,
Visualization, and Analytics (DIVA)
to Turn Data into Money

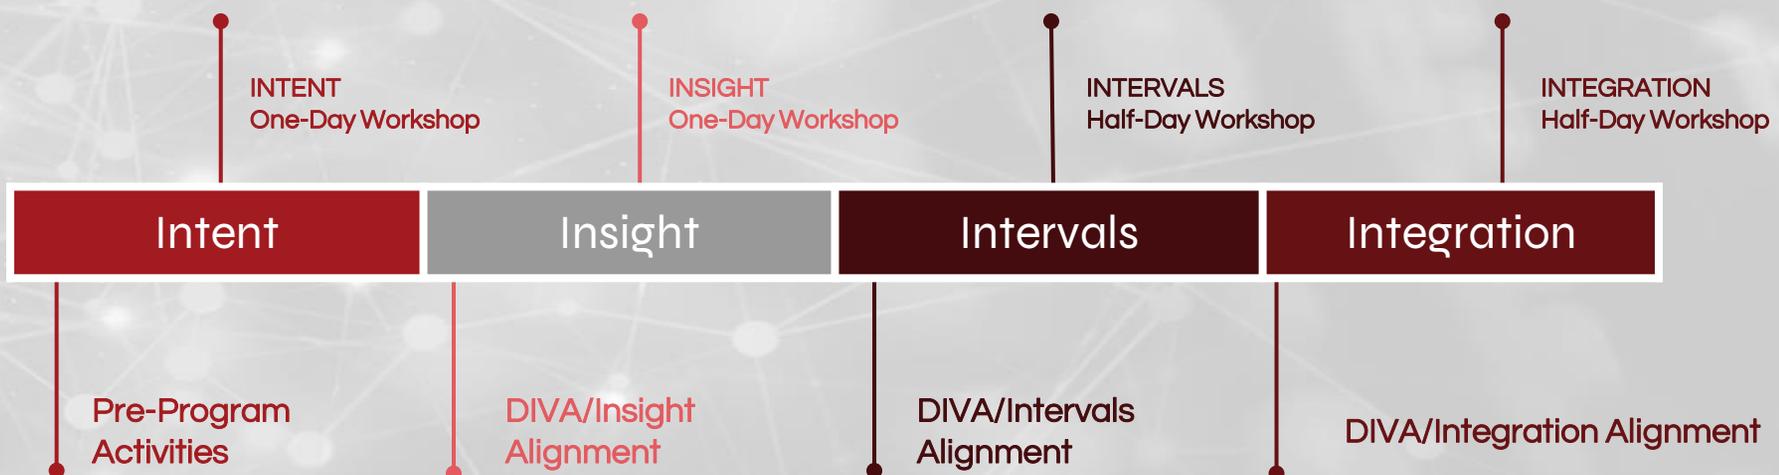

An executive experience designed to jump-start your business strategies by curating the best that your team has to offer, using data you already have.

An Integrated Analytics Leadership Program Utilizing the Four Laws of Strategic Excellence

A fully integrated DIVA Leadership in Analytics capability program built around the three key program frameworks:

- Executive Analytics Leadership Capability Program (Senior Leadership Team)
- Data/Business Analytics Leadership Program (Key Talent Cohort)
- Customer Relevancy Program (Marketing and Systems)

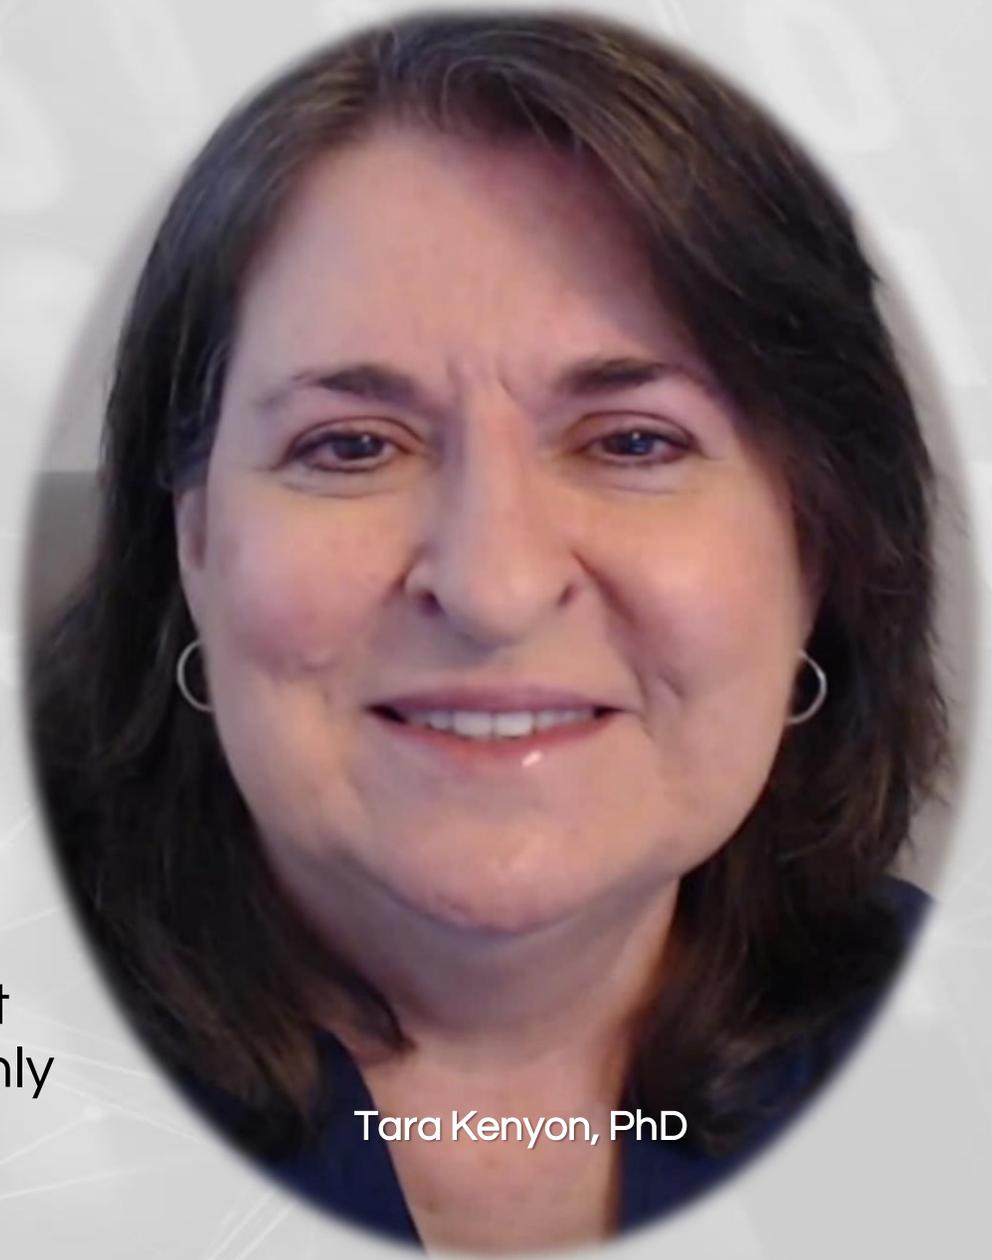

Compete on Analytics, Chase Your Customers
Dominate on Analytics, They Chase You

Be a DIVA...

...an expert in

Data
Insights,
Visualization, and
Analytics.

I am passionate about helping executives - just like you - use their data to not only compete on analytics but to also, **dominate** their markets with analytics to **turn data into money.**
